

# Bella Berlin

## Technical and Hospitality Rider

### Technical requirement:

- **1 x Platform 2m x 2m (at least 1x1m) – covered with black Molton !!!**
- **2 x light tripods (see below)**

- **2 x 2 kW fog machines with fans to spread out the fog evenly**

- **1 x rose – Spotlight**

- **1x blacklight Spot**

**! Important !**

**The BellaBerlin logo must be projected on screens or panels for a duration of 5 minutes before and after the performance !!!**

**The logo files will be provided by the booking agency!**

**For the time of the performance all light must be switched off !!!**

**Laser settings by Lasaberlin:**

The laser, on hip level, that comes from the sides (left, right) should have ideally a distance of 3 meters from the artist.

The front laser needs to be maximum 5-10 meters away and should be highly collimated / focussed on the chest of the artist.

Please make sure that the technician and artist have at least 2:30 hours time to set up the laser + rehearsal! For set up and rehearsal the venue technician / stage manager must be available at any time!!!
